

The table below details the most recently-reported data status from each connected ACT site. This data is self-reported and may have changed from the most recent update made in **October 2019 (sites marked with ** were added to the network more recently, and updated as of October 2020)** . Data gaps that are in progress of being addressed are delineated with an asterisk (*). If you have questions beyond the information presented in this document, please reach out to your respective key local contacts after finding your site’s webpage [here](#).

ACT site display name	Site Fullname + (CTSA HUB if different)	Year of earliest patient data	Types of encounters included in i2b2	Total patients	Noteworthy or Known information re: demographics?	Noteworthy or Known information re: meds?	Noteworthy or Known information re: ICD-9 Diagnoses?	Noteworthy or Known information re: ICD-10 Diagnoses?	Noteworthy or Known information re: Procedures?	Noteworthy or Known information re: Lab Tests (LOINC)?
Arkansas Children's Hospital**	University of Arkansas for Medical Sciences	2017	- Hospital encounters/visits - Clinic encounters/visits - Physician office encounters/visits	1,042,236	None	None	No IDC-9 Diagnosis data	None	Some Gaps: - Limited ICD-9 Procedures: - Operations on the integumentary system - Operations on the musculoskeletal system	Limited Results
Boston U	Boston University	2000	- Hospital encounters/visits - Clinic encounters/visits - Physician office encounters/visits	2,047,784	Some Gaps: - Ethnicity: Hispanic - Sex: Ambiguous - Vital Status: Dead	None	None	None	Some Gaps: - No HCPCS procedures - Low counts for CPT procedures in late 2018 and 2019 (will be corrected within 2-3 months)	Limited Results - No data for Lab Types: - Molecular Pathology* - Pathology* - Specimen attributes* - Skin tests* - Radiology* - Patient Information* - challenge* - Drug doses* - Document ontology*
Childrens National	Children's Research Institute	2009	- Hospital encounters/visits - Clinic encounters/visits - Physician office encounters/visits	1,353,074	Some Gaps: - 18+ years old	Some Issues: - Only NDC code. Mapping between RxNorm and NDC at SHRINE server	None	Some Gaps: - No ICD-10 codes before 11/2015	Some Gaps: - No ICD-10 procedures - No HCPCS procedures	Limited Results
Cincinnati-Childrens	University of Cincinnati	2009	- Hospital encounters/visits - Clinic encounters/visits - Physician office encounters/visits	1,113,922	Some Gaps: - 35+ years old - Sex: Ambiguous	Some Issues: - Partial data for RxNorm and NDC codes	None	Some Gaps: - No ICD-10 codes before 10/2015	None	Limited Results - No data for Lab Types: - Drug/Tox* - Allergy* - Microbiology (includes Viruses)*
Colorado-Childrens	Children’s Hospital Colorado (University of Colorado)	2006	- Hospital encounters/visits - Clinic encounters/visits - Physician office encounters/visits	1,186,233	Some Gaps: - Limited patients 21+ years old	None	None	None	Only has hospital billing, no professional billing	Limited Results - No data for Lab Types: - Drug/Tox* - Allergy* - Blood Bank - Cell markers - Flow Cytometry* - Fertility testing* - Human Leukocyte Antigens* - Molecular Pathology* - Pathology* - Serology* - Specimen attributes* - Cytology* - Skin tests* - Radiology* - Patient Information* - challenge*
